

UTKALMANI GOPABANDHU INSTITUTE OF ENGINEERING, ROURKELA

LESSON PLAN

SUBJECT-PLANT SAFETY MANAGEMENT

**PREPARED BY- SOVAN KUMAR SAHOO
DEPARTMENT OF CHEMICAL
ENGINEERING**

	Topics covered
WEEK 1	Fundamental of safety
	Unsafe act and unsafe condition
	Integration of Safety, Health and Environment
	Objective of Safety Management
WEEK 2	Principle of Safety Management
	Terms and definition used in safety management
	Classification of accidents
WEEK 3	Revision
	Good Housekeeping practice
	Work place safety
WEEK 4	Safe working environment
	Spot a hazard to stop an accident
	Case Study- Spot a hazard to stop an accident
	Precaution in use of ladder
WEEK 5	Safety instruction during maintenance
	Safety measures during handling of compressed system, cylinders
	Safety measures during handling of painting Equipments.
	Permit to work system
WEEK 6	Requirement of personal protective equipment
	Classification of Hazards
	Types of Personal protective equipments
	Types of Personal protective equipments
WEEK 7	Personal protective equipments for different parts of body
	Guideline to use personal protective equipment
	Safety practices in using personal protective equipment
WEEK 8	Revision
	Fundamentals of fire
	Elements of fire

WEEK 9	Terms and definition in Fire Management
	Classification of fire
	Classification of fire extinguishing technique
WEEK 10	Causes of fire and its prevention
	Different types of fire extinguisher and their application
	Precaution for prevention of fire
WEEK 11	Definition of Chemical Hazards
	Classification of Chemical Hazards
	Case study- Chemical Hazards
WEEK 12	Factors influencing effects of toxic chemicals
	Terms related to industrial hygiene
	Guidelines and norms for level as per industrial hygiene
	Control measure for Chemical hazards
WEEK 13	Control measure for Chemical hazards
	Revision
	Quiz test
WEEK 14	Introduction to electrical safety
	Precaution in use of electricity
	Safety in use of electricity
	Electrical hazards in Industrial system
WEEK 15	Electrical safety, prevention in Industrial system
	Safety provision to prevent electrical hazards
	Safety provision to prevent electrical hazards
	Revision
WEEK 16	Revision
	Quiz test
	Sources of mechanical hazards
	Machine Guard and Safety devices
WEEK 17	Pressure hazards and pressure vessel
	Safety measures in use of gas cylinders
	Types of maintenance (example- Breakdown, preventive)
	Revision
